

DivineIntel™
We Find Answers

Drone Surveillance

When you absolutely, positively need aerial surveillance day or night, Divine Intel's Air Branch is here to help. Our team of combat-experienced, former military drone operators supervised by our FAA Remote Pilot (Part 107) and in-house privacy attorney can support you with safe, professional, effective, admissible drone surveillance evidence.

Capabilities include:

- **Monitoring static and mobile point targets**
- **Pattern of life collection + analysis**
- **Aerial searches + surveys**
- **Legal collection + analysis**
- **Multi-spectral collection + analysis**
- **Thermal collection + analysis**
- **4K HDR Video**

Faster Results

Get information in days or weeks, not months or years. We spend money to save time investing 5x more than traditional private firms on our information resources.

Better Results

We'll get you better results because we go beyond a search engine, a paid database and won't be dumping a report of data points in your lap.

We provide analysis-backed intelligence.

You can spend time trying to save money, or you can spend money to save time.

You can never make more time.
